

# System Integrators

## Event guide

From complex turnkey solutions to system upgrades tuned to the latest technologies, new and returning manufacturers like Monacor and Chauvet are just a few of the many exhibitors showcasing products and solutions for system integrators and installers at this year's edition. Also returning are **Audinate**, hosting their new training workshop, 'Optimizing Your Dante Network'.

### Training workshop **Optimizing Your Dante Network**

A new course designed to teach attendees about some of the key design concepts, and more common technologies deployed in typical medium-sized networks. This course is ideal for reinforcement of Dante Certification topics along with new approaches to IT convergence, system design and more. Like the previous Dante training, this training will be free-to-attend for registered visitors.

Read more about the training workshop at [www.prolightsoundme.com/Dante](http://www.prolightsoundme.com/Dante)

**When** : Tuesday, 25<sup>th</sup> September, 2018, 10:00am – 4:00pm
